A Manufacturer's Certification is a signed statement from the manufacturer certifying that the product or component qualifies for the tax credit. The IRS encourages manufacturers to provide these Certifications on their website to facilitate identification of qualified products. Taxpayers must keep a copy of the certification statement for their records, but do not have to submit a copy with their taxes. Homeowners must submit IRS Form 5695 and meet all rules to qualify. Consult a tax professional for specific information and how these rules will affect you.
